WEATHER OF CONCERN

NORTHERN CALIFORNIA

- A few isolated showers possible over the mountains this afternoon and evening and then again early next week..
- A slow cooling trend through early next week but daytime highs remaining above normal.

SOUTHERN CALIFORNIA

- High temperatures are forecast to be about 15 degrees above normal today. Some records may be in jeopardy of being tied or broken. Best thing you can do to prepare for this first taste of heat: Limit your time outside, plan outdoor activities during the morning hours, drink plenty of water and keep extra on hand, and wear light colored and loose fitting clothes.

WEATHER KEY POINTS

04/25/19 - 05/01/19

Thursday-Saturday

- Warm conditions over the next few days will continue melting of snowpack and lead to rises in rivers and streams. No significant flooding impacts are expected at this time.
 - Much of the state will have low risk for heat impacts for those populations extremely sensitive to heat, especially those without effective cooling and/or adequate hydration.
 - Moderate risk for heat impacts for those who are sensitive to heat in the Inland Region and deserts of Southern Region.
- Isolated thunderstorm potential over mountains across the state, especially in the Sierra.

Sunday-Tuesday

- Next significant chance for showers and thunderstorms will be Sunday through Tuesday.
 - Rainfall chances currently look highest across the southern half of the state.
 - This storm could also be accompanied by gusty winds, especially in Southern Region.
- By Sunday and into early next week, a cooling trend will lead to significantly fewer impacts due to heat.

Wednesday

- Warmer and drier weather currently looks to return for the middle of next week
